

# KingCoin Tokenomics

## Token Overview

Token Name: KingCoin

Symbol: KING

Chain: Binance Smart Chain (BEP-20)

Initial Supply: 100,000,000 (10 Crore KING)

Burnable: Yes (planned token burns to reduce supply)

Liquidity: Will be provided via PancakeSwap

## Utility & Use Cases

KingCoin is designed to empower the Pashtun tribal community and unify regions of Pakistan and Afghanistan. It has several practical use cases:

- Trading: Can be traded on decentralized platforms
- Rewards: Distributed to community members for engagement
- In-Game Currency: Used in 'Tribe of Kings' game

## Scalability & Community Model

Future Supply Scaling: Supply can be increased in future phases as per demand.

Community Model: Initially solo-led, with future plans to grow via Twitter, Instagram, Telegram, and Facebook.

## Roadmap Highlights

- Q2 2025: Token creation, Whitepaper release, Website launch
- Q3 2025: PancakeSwap listing, Marketing campaigns, Beta game launch

# KingCoin Tokenomics

- Q4 2025: Full game launch, NFT integration, Community expansion
